

## INTEGRAL COACHING & CONSULTING CENTER

Integral Coaching Canada Inc. (Ottawa, Ontario) and the Integral Institute (Boulder, Colorado) have signed a Partnership Agreement to build a world-wide, best-in-class Integral Coaching® training center that will serve the growing need globally to support the evolution of First Tier to Second Tier development. We will be offering professional coach training programs for new coaches, training for existing professional coaches who want to become Integral Coaches™ and building a world-wide network of trained coaches.

### **NEW COACH TRAINING STREAM:**

You can enrol in the Integral Coaching® Certification Program currently available through Integral Coaching Canada Inc. This program will be available in the United States in 2008 and will offer the same curriculum. If you're ready to start training now, then register through Canada. Module 1 – Foundation & Apprenticeship is the pre-requisite course for Module 2 - Embodiment & Certification.

### **EXISTING PROFESSIONAL COACH TRAINING STREAM:**

A compressed Integral Coaching Accreditation Course is currently under development for delivery in Canada and the United States. This will complete the requirements for existing professional coaches to become accredited as Integral Coaches™.

There are other coaching schools who train students following some of the Integral principles available through the reading of Integral Theory. This is great! However, Integral Coaching Canada Inc. is the only school that actually employs a full AQAL framework in their underlying theory, coaching method, coaching process, and in every facet of their curriculum design. If coaches from other Integrally-informed schools would like to become members of the World Association of Integral Coaches™ then they will need to follow the Existing Professional Coach stream. This program will be open to those who are already certified through an International Coach Federation (ICF) accredited coach training program.

We will keep you posted on new developments with respect to this new training program.

### **WORLD ASSOCIATION OF INTEGRAL COACHES (WAIC)**

We are currently building the web site that will support the Integral Coaching & Consulting Center and its World Association of Integral Coaches. Coaches who are certified through the New Coach stream or the Existing Professional Coach stream will be eligible to join the World Association of Integral Coaches. We will be building a web site to support a global network of coaches including providing personal profiles of each coach. We will create a global community of Integral Coaches™ who are working world-wide to support consciousness development (both vertical growth and horizontal health).

Integral Coaching® is becoming the change modality of choice and will be for decades to come.
